Available upon request.

THERESE LAGERHÄLL

FRONTENDUTVECKLARE | REACT & TYPESCRIPT

PROFILE

Front-End Developer graduated from IT-Högskolan with experience from Region Halland, where I developed web applications using React and TypeScript. I enjoy creating user-friendly solutions, improving user interfaces, and solving technical challenges through close collaboration with others. I combine technical expertise with a strong eye for design, structure, and user experience.

ERFARENHET

Frontend-Developer (Internchip)

Region HALLAND | 2025-2026

- Developed and enhanced internal web applications using React and TypeScript.
- Built reusable components with Mantine.
- Worked with REST APIs and database integration.
- Debugged and resolved technical issues.
- Collaborated with developers, UX designers, and product owners in a Scrum team.
- Worked with Azure DevOps and Git.

Preschool Teacher

Swedish Church | 2018-2019

City of Gothenburg | 2016-2018

- Planned and delivered activities tailored to individual needs.
- Worked in a structured, fast-paced environment with a high level of responsibility.
- Collaborated with colleagues and guardians.
